

§ 121.107

13 CFR Ch. I (1–1–12 Edition)

(3) If a concern has not been in business for 12 months, the average number of employees is used for each of the pay periods during which it has been in business.

(4)(i) The average number of employees of a business concern with affiliates is calculated by adding the average number of employees of the business concern with the average number of employees of each affiliate. If a concern has acquired an affiliate or been acquired as an affiliate during the applicable period of measurement or before the date on which it self-certified as small, the employees counted in determining size status include the employees of the acquired or acquiring concern. Furthermore, this aggregation applies for the entire period of measurement, not just the period after the affiliation arose.

(ii) The employees of a former affiliate are not counted if affiliation ceased before the date used for determining size. This exclusion of employees of a former affiliate applies during the entire period of measurement, rather than only for the period after which affiliation ceased.

§ 121.107 How does SBA determine a concern's "primary industry"?

In determining the primary industry in which a concern or a concern combined with its affiliates is engaged, SBA considers the distribution of receipts, employees and costs of doing

business among the different industries in which business operations occurred for the most recently completed fiscal year. SBA may also consider other factors, such as the distribution of patents, contract awards, and assets.

§ 121.108 What are the penalties for misrepresentation of size status?

In addition to other laws which may be applicable, section 16(d) of the Small Business Act, 15 U.S.C. 645(d), provides severe criminal penalties for knowingly misrepresenting the small business size status of a concern in connection with procurement programs. Section 16(a) of the Act also provides, in part, for criminal penalties for knowingly making false statements or misrepresentations to SBA for the purpose of influencing in any way the actions of the Agency.

SIZE STANDARDS USED TO DEFINE SMALL BUSINESS CONCERNS

§ 121.201 What size standards has SBA identified by North American Industry Classification System codes?

The size standards described in this section apply to all SBA programs unless otherwise specified in this part. The size standards themselves are expressed either in number of employees or annual receipts in millions of dollars, unless otherwise specified. The number of employees or annual receipts indicates the maximum allowed for a concern and its affiliates to be considered small.
